

**Remarks**

Applicants thank the Examiner for pointing out that Applicants inadvertently listed the elected sequence (TTDHQMARKS) as SEQ ID NO:13 rather than SEQ ID NO: 82 for initial prosecution. Applicants hereby confirm that the elected species is SEQ ID NO:82 (TTDHQMARKS) for initial examination.

As previously indicated, Applicants had elected group 14 (subgeneus G1). Claims 42-49 read on the elected group. In response to previous Restriction Requirements mailed in connection with the present application, Applicants had elected certain species assuming that all claims will be examined to their full scope should the initial examination find patentable subject matter. Among claims of the elected group, claims 42-44, 47, and 49 read on the species elected for initial examination.

As previously addressed, Applicants also reserve the right to pursue claims to non-elected species and subgenera as prosecution develops.

Please charge any necessary fees or credit any overpayments to our Deposit Account No. 03-1721.

Respectfully submitted,

Dated: January 30, 2009
